

DATACOR ERP EXTENDED PROFILE

OVERVIEW

Datacor ERP (formerly Chempax) is comprehensive enterprise resource planning software designed for process manufacturers and chemical distributors that brings all back-end operations together under one vendor for centralized inventory and procurement, business intelligence, manufacturing, accounting, customer relationship management, and more.

Access the granularity and automation needed to streamline operations in every department, maintain data integrity, and develop efficient internal processes that continually boost productivity. With a straightforward implementation process that requires no programming, you can leverage Datacor ERP to make smarter business decisions and manage change.

The Preferred ERP Solution.

- Streamline all operations from a single source solution
- Ensure top-of-the-line products from formulations to shipments
- Enhance the customer experience and optimize selling
- Improve efficiency, inventory accuracy, and executive decision-making
- Integrate government reporting requirements with business operations for hassle-free compliance
