

SAGE 300CLOUD

EXTENDED PROFILE

OVERVIEW

Sage 300cloud (formerly Sage Accpac) is an enterprise resource planning (ERP) software system that serves small and medium-sized businesses in professional services, financial services, the public sector, and other markets such as distribution and wholesale.

Sage 300cloud takes the complexity out of managing your business finances across borders, in multiple currencies and locations.

Some core features of Sage 300cloud are:

- Manage multiple companies and currencies – Sage 300cloud makes it easy to set up and manage multiple companies, close books, and report results by company or consolidated company.
- Eliminate international business complexity – With Sage 300cloud, you can maintain an unlimited number of currencies and exchange rates, get daily updates, and automate the gains or losses from fluctuations.
- Simplify inventory management – Ship orders on time, from multiple locations. Simplify your inventory—including shipments, returns, and adjustments—with multi-location inventory tracking.
- Automate your finances – Simplify your monthly bank reconciliations. Detect unrecorded transactions, errors, and differences, and easily correct to reconcile your books with your bank statements.
