

# **ALERE ERP EXTENDED PROFILE**

## OVERVIEW

User-friendly general-purpose ERP package with robust financial, traceability, and manufacturing feature sets. ALERE is perpetually licensed and customizable, allowing it to integrate into any environment seamlessly.

ALERE provides organizations with industry-leading manufacturing tools, including MRP, scheduling, BOM management, route management, work order control, costing, and job management.

The interface provides users with a straightforward way to account for variance, manage work order changes, track lot and serial numbers, and oversee WIP management. This information helps production and inventory coordinators identify bottlenecks and pinpoint areas for further efficiency.

ALERE's financials and inventory capabilities enable far greater clarity and control of an organization's operations through a combination of unparalleled traceability and user-friendliness. Never be in the dark about the financial health of your organization or your inventory again.

Additional features of ALERE Manufacturing include the ability to edit work orders, adding or removing components, all while keeping the inventory up to date in real time. The system can integrate with ALERE Accounting to provide a single source for accounting and manufacturing requirements.

ALERE Manufacturing is deployed as an on-premise solution. A free 30 day trial of the software can be downloaded from their website.
