

DELTEK MACONOMY EXTENDED PROFILE

OVERVIEW

Deltek Maconomy is a project-based ERP solution that is purpose-built for professional services companies. The system provides a high standard of automated reporting and insight into a business and provides paths from the firm’s sales resources to management and production.

There are two modules; Deltek Maconomy business performance management and Touch Time for Maconomy. Touch Time functionality provides instant access to time sheets from mobile devices, including Android and iOS. The business performance management tools provide a business intelligence solution that enables up-to-date, reliable business data that's available to users across the business and integrates with a wide range of third-party software including Microsoft Office. All reports are available in a wide variety of formats and through customizable dashboards.

All Deltek Maconomy software is available in multi-currency and multi-language and fully integrates with all Microsoft products including servers and SharePoint.

Companies that have implemented Deltek Maconomy ERP software include Canadian IT support company Greycon, global water management company Deltares, and Midwest USA accounting consultancy business Boulay Heutmaker Zibell and Co.
